Pro Tongs™ FOOD HANDLING TOOLS

Pro Tongs are new handy tools designed by iSi for professional food preparation. Their unique design allows for secure handling of a wide range of foods.

Easy disassembly of tongs ensures that all parts can be cleaned effectively, essential for GHP (Good Hygiene Practice) and HACCP policy. Pro Tongs are certified by NSF®.

(Search listings at <http://www.nsf.org/Certified/Food/>)

Multifunctional Edges

For 100% control of all types of food
Useful for preparing, cooking, grilling, and serving

GENTLE

- rounded edges for delicate handling
- avoids perforation of food

PRECISE

- fine control of small items

FIRM

- secure grasp of vegetables
- for serving pasta and salad

3 Locking Positions from closed to wide open

High Quality Materials

CLOSED

- Closes for compact storage with a convenient hook for hanging.
- Will not spring open and get stuck in your kitchen drawer.

FIRST POSITION

- Opens to narrow position for comfortable handling of smaller items.
- Ergonomic positioning minimizes user fatigue.
- Takes up less space when not in use.

SECOND POSITION

- Opens to widest position to handle large quantities or items.
- No need for an extra set of tongs for this purpose.

LOCK

- High performance fiber-glass reinforced nylon

TONGS

- 18/10 stainless steel

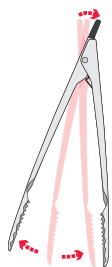

SPRING

- Chrome plated flexible spring steel

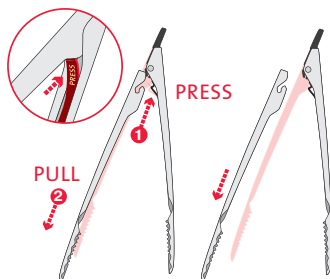

Pro Tongs™ FOOD HANDLING TOOLS

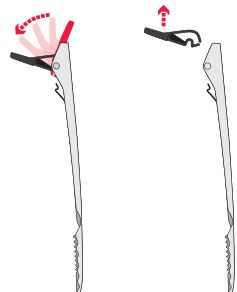

Easy Disassembling in 4 Steps

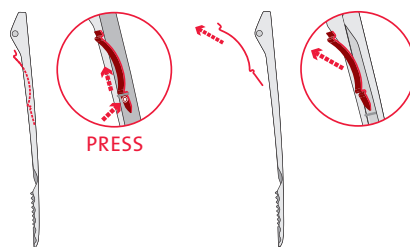

1
Release lock to open tongs to widest position.

2
With your thumb, press inside spring and gently separate tongs. Do not use excessive force!

3
Move lock forward to release from tong.

4
Press the lower part of the spring, as indicated, and slide upward to release from tong.

Now all parts are separated for easy cleaning. To reassemble, follow steps 1-4 in reverse.
